VoltSpark

Save Energy. Stay Safe. Win Customers.

Energy & Compliance Management Platform for Indian Industry

Cloud-based platform that helps factories track energy costs, manage ZED/ISO compliance, prove savings in ₹, and help consultants scale their practice. No hardware needed.

THE PROBLEM

⚠️ Hidden Energy Costs

PF penalties ₹5K–20K/month go unnoticed. Demand overshoot charges. No visibility into which process costs what.

📋 Compliance Chaos

ZED, ISO 50001, Electrical Safety tracked in Excel & WhatsApp. No audit-ready evidence. Linked to subsidies & vendor approvals.

❌ Can't Prove Value

Installed VFD/APFC/LED but no ₹ proof. Consultants can't show ROI. OEMs ask for data you don't have.

WHAT VOLTSPARK DOES

🔍 Utility Bill Analyzer

Enter BESCOM/CESC bill → auto-detect PF penalties, demand overshoot & anomalies

📈 Energy Tracking

Grid, solar, DG consumption. Monthly trends. Year-on-year comparison.

✅ Compliance Dashboard

ZED, ISO 50001, Electrical Safety — checklists, evidence upload, scoring

💰 Savings Tracker

Track actual ₹ saved per improvement. VFD, LED, APFC, solar — all in one view.

📊 ROI Calculator

Payback period, NPV, IRR for solar, VFD, APFC, LED, motor upgrades

👥 Consultant Portfolio

Manage 10+ factory clients from one dashboard. Switch clients instantly.

WHO IS IT FOR

- Factory Owners (CNC, Electronics, Auto, Pharma)
- Energy Consultants & Auditors
- ZED / ISO Consultants
- ESCOs & EPC Companies

PRICING

STARTER	MOST POPULAR PROFESSIONAL	ENTERPRISE
Free	**₹2,999**/mo	**Custom**
1 factory Basic energy tracking	Up to 10 factories All features included	Unlimited factories White-label option

💡 **The ROI is simple:** If VoltSpark catches even one PF penalty of ₹8,000/month, it pays for itself **3x over**. That's not a cost — that's an investment with guaranteed returns.
